PERSONAL PROFILE

Software engineering student with experience delivering end-to-end web applications and solving real-world problems.

EDUCATION

Acropolis Institute of Technology and Research <i>B.Tech Information Technology — CGPA: 7.7</i>	Sept 2023 – July 2027 <i>Indore</i>
Army Public School No.1 <i>Class XII — 75.6%</i>	2021 – 2022 <i>Jabalpur</i>
Army Public School No.1 <i>Class X — 78%</i>	2019 – 2020 <i>Jabalpur</i>

EXPERIENCE

Software Developer Intern <i>Rasoi Rasta</i>	Feb 2026 – Present <i>Remote</i>
– Designed and implemented 15+ REST API endpoints supporting POS operations, QR ordering, menu management, and table workflows. – Collaborated with frontend developers to integrate backend services and resolve API-level issues across modules.	

PROJECTS

AI Booth Management System

- Engineered a civic platform enabling voter registration, grievance tracking, and public issue management.
- Integrated AI-powered complaint prioritization with **Ollama**.
- Designed workflows for 3 user roles (Citizen, Officer, Admin).

Veritas – AI News Verifier

- Developed an automated claim verification pipeline that evaluates news articles against reliable online sources.
- Generated structured evidence-backed verdicts with confidence scoring and source attribution.
- Designed a responsive interface for submitting claims and reviewing verification history.

TwoDo – Collaborative Productivity Platform

- Built a real-time collaborative platform with secure multi-tenant access using PostgreSQL Row Level Security and Supabase Realtime.
- Implemented real-time synchronization, offline PWA support, and automated Web Push reminders for seamless cross-device collaboration.

TECHNICAL SKILLS

- **Languages:** Java, C/C++, JavaScript, SQL
- **Frameworks:** React, Next.js, Node.js, Spring Boot
- **Databases:** PostgreSQL, MySQL, MongoDB, Supabase
- **Developer Tools:** Git, Docker, Postman, Linux
- **Core Concepts:** RestAPIs, Object Oriented Programming, Data Structures & Algorithms, DBMS, SDLC

ACHIEVEMENTS

- Selected for **Delhi 2.0**, a 3-day government innovation bootcamp following **India Innovates**, where I refined and presented the **Booth Management System** to the **Chief Minister of Delhi** and senior officials from the Chief Minister's Office.
- Secured the **Best Presentation Award** at the **Fibohack State-Level Hackathon**.
- Achieved **96% (Top Performer)** in the NPTEL Programming in Java certification.
- Solved **100+** algorithmic problems on LeetCode.
